

UPPER SKIN PANEL - WING CENTER TANK

CW-109
C-2014
GREEN

This 4" wide piece of upper skin is attached to the skin flange portion of the double plus chord from S-18 to S-28. At stringer 27 the skin has a triangular piece that extends 9" inb'd from LBL 127.5. Only small portions of stringers and stringer end fittings remain attached. The fwd 30" is bent up 90 degrees on a 15" radius. All the fractures are ductile.

See Fire and Explosion Group notes for further documentation.
