

BODY BUTTLINE 0.00 RIB - WING CENTER TANK

CW-1104
z-2702
GREEN

This is a small piece of the buttlime 0 rib located along the bottom of CW-1103. The piece is approximately 9 inches by 18 inches

This piece consists of the BBL 0 rib web and stiffeners. The forward edge of the piece has two penetrations about 1/4" in diameter going from the left side to the right side. Also on the front edge is an area of "spike tooth" fractures curled to the left. The aft half of this piece is bent hard to the right side and has a crease toward the right side.

There is soot on both sides of the part, see Fire and Explosion Group notes for details .
