

LOWER SKIN PANEL - WING CENTER TANK

CW-230	CW-231
Z-2752	Z-2715
GREEN	GREEN

These are two small pieces of skin and midspar chord that measure 6" x 20".

Both of the parts are twisted and bent. The fasteners common to the skin flange of the chord and skin panel remain intact.

There is sooting on the interior and exterior surface of the parts. See the fire and explosion group notes for complete documentation.
