

SIDE OF BODY RIB - RIGHT WING - WING CENTER TANK

CW-311  
Z-2707  
GREEN

This segment is a portion of rib web, partial stiffeners, and stabilization intercostal. The web measures 29" long by as much as 20" high. The skin flange and a portion of the web of the stiffener remains at three stiffener locations.

The part is generally flat with two fractures within the web starting at the lower edge. The part has mating fracture faces with CW-305, CW-306, CW-312, and CW-326. The stabilization intercostal remains attached but is heavily distorted. All fractures are ductile. See the accompanying sketch for further details.

See the fire and explosion group notes for complete documentation on sooting.
