

MID SPAR - WING CENTER TANK

CW-817  
C-2233  
GREEN

This segment is located at LBL 70-95, and is 5" high. This part is attached to the upper chord by a tension fitting at LBL 75.93. The upper chord also retains the chord flange of the shear tie at LBL 87.26. The shear tie is fractured just below the "T" radius. A piece of upper skin is attached. The outboard end of chord and web is bent aft.

No fire damage or sooting is observed.
