

SPANWISE BEAM #1 - WING CENTER TANK

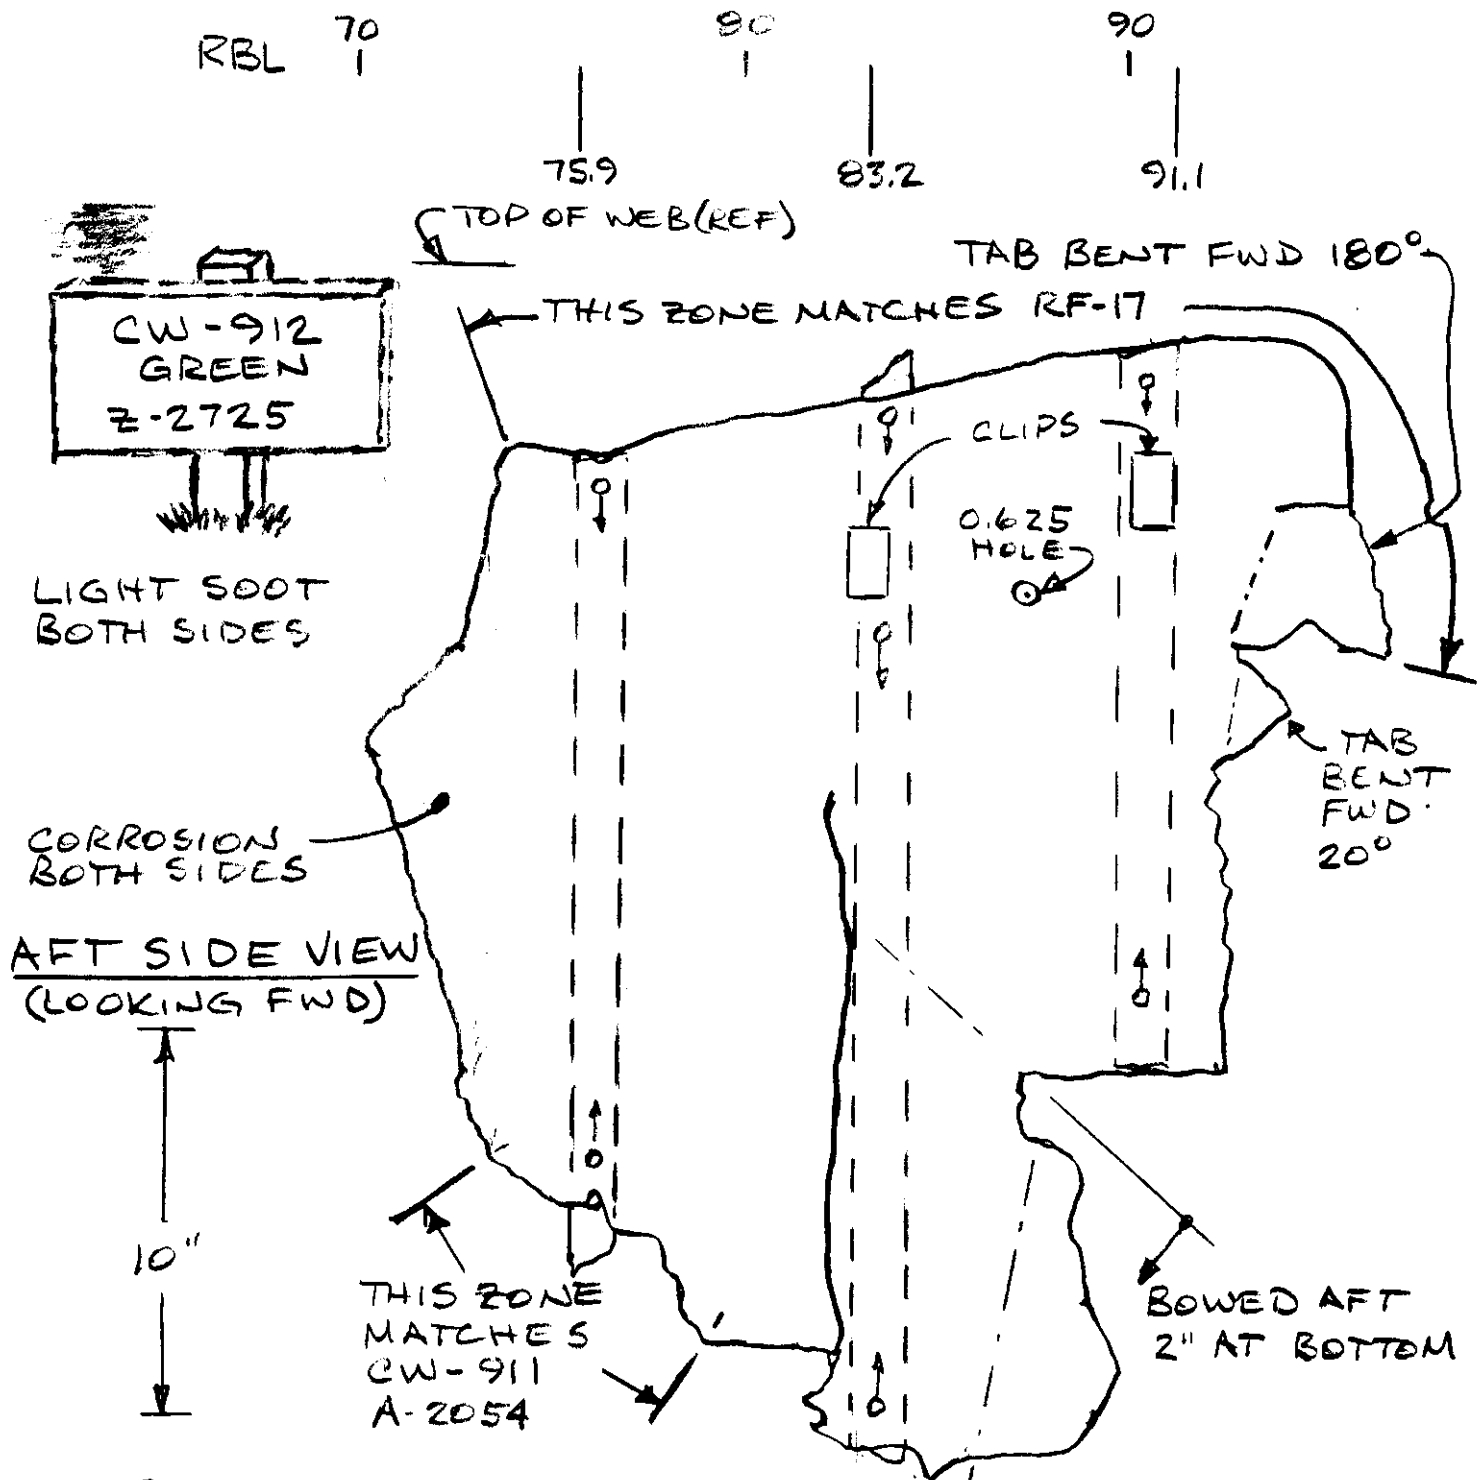

CW-912
Z-2725
GREEN

This is 24" X 29" portion of web and stiffeners from RBL 70 to 95 and starts 8" below the upper chord.

All the stiffeners are fractured through the stiffener web and only the bulkhead web attach flange remains fastened to the web. The right outboard 3" is bent fwd 180 degrees. The web has a 17" vertical split at RBL 83. See the attached sketch for further definition. See fire and explosion group notes for documentation.
