

LW-7  
C-114 Green Tag Lat 40.39.47 / Long 72.37.28

Upper Wing Skin Left Hand Side, Wing Sta 382 to Side-of-body rib, rear spar to stringer 24. The piece measures 13 ft, 8 in by 39 in (39 in at S15 & S13).

This piece has jagged fracture line through skin and stringers, with significant deformation in stringer webs and flanges. Fracture line in skin has many jagged sharp edges, rips, with curls both upward and downward.

No evidence of soot on exterior surface. The interior surface is also free of soot, with the exception of the region between stringer 6 and 7. In this region, soot covers the interior skin surface as well as the adjoining webs of stringers 6 and 7.

*Note on how to find part in hanger: this piece is located in the center tank mock-up area.*
