STUDENT PILOT CERT. NO.:

MEDICAL APPLICANT NO.:

WAS ON TRAINING FLIGHT/DUAL INSTRUCTION FLYING PATTERN ON RUNWAY 16 (TRAINING AREA/NOT MAIN RUNWAY). I FLEW THREE (3) PATTERNS WITH INSTRUCTOR WITH NORMAL TAKE-OFFS AND LANDINGS IN PREPARATION FOR MY THIRD SUPER-VISED SOLO.

WHILE ON RUNWAY 16, INSTRUCTOR STEPPED OUT AND MOVED TO SAFE AREA. AS I PREPARED TO LIFT THE HELICOPTER INTO A HOVER, I CHECKED MY INSTRUMENTS AND SLOWLY STARTED LIFTING THE HELICOPTER INTO A HOVER. ALMOST SIMULTANEOUSLY, I FELT VIBRATIONS AND LIFTED SLIGHTLY AND AGAIN, ALMOST IMMEDIATELY, THE RPM OVERSPEEDED RAPIDLY AND IMMEDIATELY RAPIDLY YAWED TO THE LEFT. WHEN IT SPUN, I LANDED IT AND FELT THE LEFT SKID HIT. I SHUT DOWN THE HELICOPTER AND WAITED FOR MY INSTRUCTOR TO RETURN TO THE HELICOPTER. THERE NO INJURIES WERE.
