Importance: High

Mr. Mehr,

Thank you for emailing your typed statement... I will include it with our public docket materials associated with the investigation.

Sincerely,
Andrew Todd Fox
NTSB, Air Safety Investigator

Statement: We were attempting to do a crosswind landing on runway 08 with a crosswind for the south at Aitkin Airport. At touchdown either we were not lined properly or the wind caught us , not 100 percent sure what happened, its caused us to bounce and changed our direction. In response we engaged full throttle for go around and the airplane bounced maybe two times attempting to fly, then stall again. Basically we were behind the power curve and couldn't climb out resulting in hitting a fence and damaging the airplane. Resulting in no injuries. Ken Mehr
