Seat Damage Evaluation Criteria

The Airplane Interior Documentation Group established a set of general guidelines with which the airplanes passenger and crew seats were evaluated. The criteria represents the overall condition of the seat units and seats recovered. Additional seat unit and seat damage documentation was compiled for all of the seats recovered which is included as a separate attachment to this report.

Minimal (light blue) - Overall condition of seat unit or seat to include: seat legs, seat pan, seat back, armrest, and safety belt restraint system is intact.

Moderate (dark blue) - Overall condition of seat unit or seat is intact with minor deformation to one or more components including seat legs, seat pan, seat back, armrest, safety belt restraint system.

Severe (green) - Overall condition of seat unit or seat include fractures or deformation of the seat legs, seat pan, seat back, armrest, safety belt restraint system.

Destroyed (yellow) - Overall condition of seat unit or seat is such that at least 2 of 5 component parts (seat legs, seat pan, seat back, armrest, safety belt restraint system) are fractured or missing.

Fragmented (red) - Overall condition of seat unit or seat is such that more than 3 component parts (seat legs, seat pan, seat back, armrest, safety belt restraint system) are fractured or missing.
