

01 : Clr Breaker B15 - Moving Lead (dscr1a)2

SI: 1500 counts LiverTime: 0sec (Default)sec: 0sec

(%t) DeadTime: 19.1%

Energy: 0.000 keV. cts.

Figure 11. Energy Dispersive Spectrometry (EDS) spectrum of the fibrous material on the moving line contact of the SPR circuit breaker. The silver in both spectra is primarily from the contact material.

Systems 9 - Exhibit No. 9B - Photo 11. Figure 11c. Energy Dispersive Spectrometry (EDS) spectrum of the fibrous material on the moving line contact of the SPR circuit breaker. The silver in both spectra is primarily from the contact material.
