

Mike Monroney Aeronautical Center P.O. Box 25082 Oklahoma City, Oklahoma 73125

MODE: AVIATION

CAMI REF #

PUTREFACTION: No

201000229001

Monday, November 08, 2010

National Transportation Safety Board 1515 W. 190th St., Suite 555

Gardena, CA 90248

 ACCIDENT #
 0229
 INDIVIDUAL#:
 001
 NAME:
 CLOUTIER, ROBERT E.

 DATE OF ACCIDENT
 08/28/2010
 DATE RECEIVED
 09/15/2010

 N #
 268RA
 NTSB #
 WPR10FA435

LOCATION OF ACCIDENT Tucson, AZ

SPECIMENS Brain, Gastric, Heart, Lung, Muscle, Spleen, Urine, Vitreous

FINAL FORENSIC TOXICOLOGY FATAL ACCIDENT REPORT

CARBON MONOXIDE: The carboxyhemoglobin (COHb) saturation is determined by spectrophotometry with a 10% cut off and confirmed by chromatography.

>> NOT PERFORMED

CYANIDE: The presence of cyanide is screened by Conway Diffusion. Positive cyanides are quantitated by spectrophotometry and confirmed by chromatography. The reporting cutoff for cyanide is 0.25 ug/mL. Normal blood cyanide concentrations are less than 0.15 ug/mL, while lethal concentrations are greater than 3 ug/mL.

>> NOT PERFORMED

VOLATILES: The volatile concentrations are determined by headspace gas chromatography at a cut off of 10 mg/dL. Where possible, positive ethanol values are confirmed by Radiative Energy Attenuation.

>> NO ETHANOL detected in Vitreous

DRUGS: Immunoassay and/or chromatography are used to screen for drugs. GC/Mass Spec, HPLC/Mass Spec, or GC/FTIR is used to confirm most positive results. Concentrations (ug/mL) at or below those in () can be determined for, but not limited to, the following drugs: amphetamines (0.010), opiates (0.010), marihuana (0.001), cocaine (0.020), phencyclidine (0.002), benzodiazepines (0.030), barbiturates (0.060), antidepressants (0.100), and antihistamines (0.020). For comprehensive information concerning all drugs detected by the laboratory, see the CAMI Drug Information Web Site http://jag.cami.jccbi.gov/toxicology/.

- >> Ephedrine detected in Urine
- >> Ephedrine detected in Muscle
- >> Phenylpropanolamine detected in Urine
- >> Pseudoephedrine detected in Urine
