Tuesday, September 16, 2014

National Transportation Safety Board 4760 Oakland Street, Suite 500 Denver, CO 80239 **ACCIDENT # 0169** INDIVIDUAL#: 001 NAME: WOOD, JOHN J. DATE OF ACCIDENT 08/09/2014 N # 92BF

**DATE RECEIVED** 08/14/2014 NTSB # CEN14LA424

MODE: AVIATION PUTREFACTION: Yes CAMI REF # 201400169001

## SPECIMENS Heart, Kidney, Liver, Lung, Muscle

Russell, IA

## FINAL FORENSIC TOXICOLOGY FATAL ACCIDENT REPORT

CARBON MONOXIDE: The carboxyhemoglobin (COHb) saturation is determined by spectrophotometry with a 10% cut off and confirmed by chromatography.

## >> NOT PERFORMED

LOCATION OF ACCIDENT

CYANIDE: The presence of cyanide is screened by Conway Diffusion, when the COHb level is equal to or greater than 10% or upon special request. Cyanides are guantitated by spectrophotometry and confirmed by chromatography. The reporting cutoff for cyanide is 0.25 ug/mL. Normal blood cyanide concentrations are less than 0.15 ug/mL, while lethal concentrations are greater than 3 ug/mL.

## >> NOT PERFORMED

VOLATILES: The volatile concentrations are determined by headspace gas chromatography at a cut off of 10 mg/dL. Where possible, positive ethanol values are confirmed by Radiative Energy Attenuation.

- >> 39 (mg/dL, mg/hg) Ethanol detected in Muscle
- >> 18 (mg/dL, mg/hg) Ethanol detected in Liver

DRUGS: Specimens are analyzed using immunoassay, chromatography, GC/MS, HPLC/MS, or GC/FTIR. Concentrations (ug/mL) at or above those in () can be determined for, but not limited to, the following drugs: amphetamines (0.010), opiates (0.010), marihuana (0.001), cocaine (0.020), phencyclidine (0.002), benzodiazepines (0.030), barbiturates (0.060), antidepressants (0.100), and antihistamines (0.020). Drugs and/or their metabolites, that are not impairing or abused, may be reported from the initial tests. See the CAMI Drug Information Web Site for additional information (http://jag.cami.jccbi.gov/toxicology/).

>> NO DRUGS listed above detected in Liver

Russell Lewis, Ph.D. TC, FAA, Forensic Toxicology **Research Team CAMI**
