Administration

Monday, September 22, 2014

National Transportation Safety Board 505 South 336th Street, Suite 540 Federal Way, WA 98003

ACCIDENT # 0133 INDIVIDUAL#: 001 NAME: CILIBERTI, JOHN R. MODE: AVIATION

DATE OF ACCIDENT 07/08/2014 DATE RECEIVED 07/11/2014 PUTREFACTION: No

N# 5816B **NTSB#** WPR14FA286 **CAMI REF#** 201400133001

LOCATION OF ACCIDENT FALLS CITY, WA

SPECIMENS Bile, Blood, Brain, Gastric, Heart, Kidney, Liver, Lung, Muscle, Spinal Fluid, Spleen, Urine, Vitreous

AMENDED FORENSIC TOXICOLOGY FATAL ACCIDENT REPORT

CARBON MONOXIDE: The carboxyhemoglobin (COHb) saturation is determined by spectrophotometry with a 10% cut off and confirmed by chromatography.

>> NO CARBON MONOXIDE detected in Blood

CYANIDE: The presence of cyanide is screened by Conway Diffusion, when the COHb level is equal to or greater than 10% or upon special request. Cyanides are quantitated by spectrophotometry and confirmed by chromatography. The reporting cutoff for cyanide is 0.25 ug/mL. Normal blood cyanide concentrations are less than 0.15 ug/mL, while lethal concentrations are greater than 3 ug/mL.

>> NOT PERFORMED

VOLATILES: The volatile concentrations are determined by headspace gas chromatography at a cut off of 10 mg/dL. Where possible, positive ethanol values are confirmed by Radiative Energy Attenuation.

>> NO ETHANOL detected in Urine

DRUGS: Specimens are analyzed using immunoassay, chromatography, GC/MS, HPLC/MS, or GC/FTIR. Concentrations (ug/mL) at or above those in () can be determined for, but not limited to, the following drugs: amphetamines (0.010), opiates (0.010), marihuana (0.001), cocaine (0.020), phencyclidine (0.002), benzodiazepines (0.030), barbiturates (0.060), antidepressants (0.100), and antihistamines (0.020). Drugs and/or their metabolites, that are not impairing or abused, may be reported from the initial tests. See the CAMI Drug Information Web Site for additional information (http://jag.cami.jccbi.gov/toxicology/).

- >> Amitriptyline detected in Blood
- >> Amitriptyline detected in Urine
- >> Nortriptyline detected in Blood
- >> Nortriptyline detected in Urine
- >> Telmisartan detected in Urine
- >> Telmisartan detected in Blood
