David Pereira  
Sr. Highway Crash Investigator (Vehicle Factors)  
National Transportation Safety Board  
490 L'Enfant Plaza East, SW  
Washington, DC 20594

Dear Mr. Pereira:

This letter is in response to your letter of July 17, 2019, describing various materials that you recommend for inclusion in the NTSB docket in support of the Board's report. The relevant documents were produced by UATC, LLC ("Uber") to the NTSB during the course of the NTSB's investigation into a March 2018 crash in Tempe, Arizona. These documents were identified as confidential due to their commercially sensitive content (among other reasons). Nonetheless, to assist with the NTSB's investigative efforts, Uber authorizes the NTSB to include the documents you requested (listed below, utilizing document descriptions found in your report, with any redactions discussed) in the public docket associated with the Board's final report:

- Driver Inspection Record
- Vehicle Curb Weight Calculations
- Tire Replacement Work Order #5683
- Uber Employment Agreement
- Uber Tiered Infraction Policy
- Arizona Adjudication Criteria
- Uber ATG Vehicle Operator Duties
- UATC Driver Policy and Procedures Agreement Form
- Uber ATG mobile phone and driving time policies
- Mobile Device Policy Infractions
- Uber ATG Vehicle Operator hand and foot hovering procedures
- AV Sensors Scheduled Recalibration

Thank you for your attention to this matter.

Very truly yours,

s/ Joshua Wilkenfeld
