 [redacted] added a subscriber: [redacted]

Gathering logs on this now.

 [redacted] added a comment.

Mar 7 2018, 1:58 PM

Radar wall has heavy traffic at the moment. Will need to wait for a little while to collect this. LiDAR and Camera Logs have already been gathered. Will update this ticket once Radar Log is collected.

 [redacted] added a comment.

Mar 7 2018, 4:23 PM

Re-Calibration Logs collected.

Having issues with catalog so will update the log paths at a later time. Going to release the vehicle back to ops.

This is a scheduled, proactive re-calibration, please keep the ticket open in order to track the remaining calibration steps.

 [redacted] added a comment.

 [redacted] added a subscriber: [redacted]

[redacted] can you fetch the calibration when you get a chance

 [redacted] added a comment.

lidar

Calibration fetched to vehicle when SDV was last deployed. Diagnostics and Firmware did not show issues regarding calibration. Closing this re-calibration ticket.

██████████ closed this task as *Resolved*.
