1 digital video file available on CD

#### Video Description

The video file shows the views from two airport surveillance cameras a side-by-side. The left view is from a camera located near the approach end of runway 13C. The right view is from a camera located near the approach end of runway 31C. The video shows the accident airplane (N799SW) landing, as well as the previous two arrivals. A timecode was added to the video images for reference.

#### File type Description

The file is in .AVI format, and can be viewed with many commonly available video playback software programs such as Microsoft Windows Media Player.
