Hi Paul,

There is no briefing information only an automated partial flight plan from an unknown source.
That's all she wrote.
I can send you that but there's not much info.

Subject: EXTERNAL: official LMFS request for Charleston, West Virginia accident from 5/5/2017 (this morning)

Good morning John

I'm on call and picked up the Charleston, WV, accident from this morning. It was a Short SH33 with N#: N334AC (operated as AIR CARGO CARRIERS 1260) that crashed near Charleston, WV, on 5/5/2017 at 0655 EDT/1055 UTC... Any check of LMFS/DUATS would be helpful! Thanks and have a great day,

Paul
