152	Janice	Arone	7/12; bridge movement like catching wake from a boat
153	John	Pars	Drove on bridge on 8/1; saw missing section
154	James	Widder	On bridge on 8/1; 1300 hrs; has observations - wind loads
155	Don	Cowler	Concerned not enough attention is being paid to overweight construction vehicles
156	David	Verness	Beliefs erosion led to collapse
157	Ed	Mathie	Saw two pictures of same joint in media; in first, appears rusty, in second appears broken; Google Earth picture
158	Faith	Kidder	7/11; 1345 hrs; felt as if road bed was floating under her car
159	Gary	Simmons	Stress/shear crack visible on Google Earth
160	John	Bakeman	Thinks it was Sun Kink. Fmr Rail IIC
161	Danny	Crafton	Six days before, bridge swayed
162	Brian	Sucko	Welder; wants to get involved
163	Alan	Francis	Has information on bridge - UPDATE - Selling product
164	Bill	Carlson	Request for INFO
165	Scott	Wright	Has two photos of bridge from 7/24
166	David	Wilburn	Wants to sell crack repair techniques
167	Charles	DeGraff	Copy of letter sent to MN DOT about bearing failure
168	Bernie	Vassar	method to recover bodies
169	Rick	Stacy	Failure of lateral diaphragm brace beams failed, then main compression arches deflected and failed once out of plane.
170	Gene	Case	Uneven loading due to construction closures
171	Kelly	Porter	Black Saturn; was NB on 35W; exited on Washington; saw a cloud of dust after a big bang; MPD told her to get off the bridge
172	Glenn	Miller	Works @ centerpoint energy water trmt; Tuesday prior; saw new, black, SUV w/tinted windows, 2 occ w/suits,sunglasses, earpieces under bridge.
173	Jim	Anderson	Saw crack in concrete under bridge on Thursday before collapse; outside lane - concrete - seemed to be at an angle
174	H. David	Palmieri	Core samples around North pier to confirm sinking
175	Tom	Petschl	He mentioned he entered the bridge and heard a loud snap around 1:30 PM from the Washington Avenue ramp.
176	Jerry	Hogeboom	Has recent photo/video of bridge and underneath
177	Tabitha	Olson	Has pictures of the collapse
