Subject: Witness Caller - Atlanta, GA

Follow Up Flag: Follow up
Flag Status: Flagged

Eric:

Witness Caller

5/8 - 3:19 PM EDT

MITCH HANCOCK

Director of Maintenance of QuiKrete (worked at the airport for 20 years)

[REDACTED]

Caller stated he was about 2300 feet off the departure end of the runway. Said he stopped to look at the a/c because it was moving extremely slow (70-75 knots) and only 75-100 feet AGL when the a/c went over his head - which he considered "extremely low". Caller stated that was very unusually at that distance. Caller stated the engine sounded normal and despite the slow speed the a/c was not "wobbling" left to right.

Thanks,

WO Jake Goss
