

RECORD OF CONVERSATION

Timothy N. Sorensen
Aviation Accident Investigator
Central Region

Date: January 9, 2018
Person Contacted: Dennis Villani
NTSB Accident Number: CEN18FA053 – Oldenburg, Indiana

Narrative:

Mr. Villani reported that he lived about one-third mile south-southeast of the accident site. On the night of the accident, he observed the airplane fly past his house at a low level. He was sitting on the couch at the time and saw the airplane out of a window. The airplane appeared to be level and intact. He recalled that it was “quiet” with no engine noise. The airplane’s lights were illuminated. He heard the impact shortly afterward.

Mr. Villani recalled that the weather was clear and cold, with no wind or precipitation.
