On May 23rd 2015, I woke up to a loud explosion sound at about 9:30 am. I was in my living room with windows facing the pond in my back yard. When I stood up I saw white smoke over the pond, I ran out side and saw an airplane in the water. There was one big recognizable piece and a lot of other small pieces of the airplane floating in the water.

I was traveling East on old Barnwell RD. As I started down the hill, I saw a shadow on my windshield. I looked up and saw plane. As I crossed the pond I turned and saw the plane hit the water. There was a large splash in the center of the pond. This looked like something really large hit here. The plane made ~~some~~ noise like it had no power.

I turned further back and the ~~the~~ trees were shaking like it may have clipped one.

I did a u-turn in the road. Saw no one in the water.

My wife called 911.

Q Could you HEAR THE PLANE?

A No. No engine noise.

I was riding driving down Old Bannwell. Husband says "what was that" that plane about hit our car it was so low. I turned to look out passenger window and saw pine trees shaking violently at top and large splash appearing across pond. Then I realized small part of plane was sticking out of water. We immediately stopped and I called 911 to report crash. The plane in hind sight was silent when it went over our car. My husband and several other men went over to the section out of the water. (My husband stayed on bank- not in water in boats) we never saw anyone come up.
