Was going Home on 1900 headed North, I saw a plane up ahead, noticed it was flying low, at that time it started diving back and forth, came down lower, hit the pavement was straight up in position, when it hit the pavement I don't know if it was the Pilot, But I think so, ran out of the plane started running away from the plane, plane caught on fire immediately, didn't see anybody else run out of the plane. Hope and pray nobody was killed.

I thought it was gonna blow up right in front of me cause I was the only vehicle on the highway except for some vehicles in the back of me, but none in front, so I caught the whole thing. I pulled over, and the vehicle's behind me pulled up behind me.

My friend Natasha Pretti was driving her vehicle. We were heading North on 1900 and stopped at 4800 at a red light. While sitting at the red light, I saw a white object hit in the middle of the road and saw huge gusts of black smoke right after. The light turned green and as we approached we could see it was a plane that had crashed and noticed it had hit a gray colored vehicle. We then pulled directly over to the east side of the road where Natasha parked her vehicle and we exited the vehicle.

I was driving traveling north on K100 behind black car when I saw a white plane falling straight down out of the air onto the back of the black car. I stopped instantly at the light (it was yellow) I said oh my God, a plane is crashing on the road. I stayed stopped at the light instead of going through the yellow light. Had I followed the vehicle in front and not stopped the plane would have hit my car the front end. I pulled over as soon as the light turned green due to all the smoke and fire and fear that the plane was going to blow up.

We exited the vehicle when I pulled off to the right side east side of the road.
