Statement: Shortly after 10:00 AM Wed Sept 7, 11
my husband Larry Johnson and I were sitting on
our porch, when we heard a plane flying
low over our house. The engine was
revved up so fast it was sounding abnormal
a few seconds later it sound like it made
a dive. Larry said some things wrong and
went out side to look. He came back
in and said he couldn't see or hear anything,
and was going to drive around and look
for a plane. I hollered to him I just got
a text message from Krok of a possible plane
down north of Winfield that was at 10:39 AM
He went to get our son Brett Johnson, then
I got another text from Krok at 11:35 AM
Pilot couldn't be found so they widen their
Search till they came upon WAAKages.
