Weather was clear  
was going to do take off landings  
Mike Total had done preflight  
I was PIC - Mike was right seat  
We took off 28 - As soon as we  
rotated Mike noticed fuel caps  
were not secured & we were losing  
fuel - we decided to stay in airport  
area as a housing development is off  
28 - we turned to land 05  
plane was rapidly descending - we  
~~but~~ landed hard skidding into  
grass to a stop - No Injuries
