Incident Journal

Journal Entry # 1: 2/4/2023 7:58 AM

Inbound From: David Patten with Norfolk Southern Railway Company reported (5) loaded Vinyl Chloride, Stabilized tank cars that had been involved in a derailment. There is an ongoing fire on scene with local responders trying to mitigate the fire. There are no reported injuries or exposures. Mr. Patten had limited information regarding the cause of the derailment. The statuses of tank cars "OCPX80235, TILX402025, OCPX80179, GATX95098 and OCPX80370" are unknown at this time. Mr. Patten requested a copy of the safety data sheet and requested a call back from the shipper. Mr. Patten can be reached directly at: [REDACTED]. I will notify the shipper of the incident.
CHEMTREC Emergency Service Specialist: McMillan, Monica

Journal Entry # 2: 2/4/2023 8:22 AM

Outbound To: Occidental Petroleum Corporation (OXY): Facility. I spoke with Mr. Ndiok and provided incident details of the incident prior to sending the report.
CHEMTREC Emergency Service Specialist: McMillan, Monica
