**Attachments:** rptFieldScorecard.pdf

Team,  
Our numbers need to improve right now. Instructions have been issued on how we are to accomplish this and it doesn't seem like we are all acting on it. These numbers show that we are slacking off in the trainyard and have no need for more help! Though we are struggling to keep up..... Not good at all. The latest plan calls for 90 secs on both the IB and the OB. I know we can do better than that! Lets make this happen. The taskmaster entries are very important and detrimental to the operation as it pertains to this report. Lets get the numbers and reporting where it needs to be.

Thanks,

Joe Wick
