Subject: [Non-DoD Source] NTSB -Technical Review Request of the draft report for Engine Room Fire aboard Towing Vessel Desperado: DCA23FM018

Good evening, Sector NOLA Investigations, [REDACTED],

Please find attached NTSB's draft Marine Investigation Report for the Engine Room Fire aboard Towing Vessel Desperado the on the afternoon of February 17, 2023 while transiting Lake Salvador near mile 20 in the Gulf Intracoastal Waterway in Bayou Perot, Louisiana.

Kindly review the attached draft report (word document or pdf) for accuracy and provide technical review and comment. The deadline for submitting comments is **June 21th, 2024**. If we do not have a reply by that date, we will consider the report to be technically correct. The NTSB investigative team will review all factual comments and provide a written summary of the disposition of those comments, including whether any changes have been or will be made to the report.

Please remember that the draft report is for official use only until released in the public docket. NTSB regulations prohibit the release of investigative information that has not been released by the NTSB without prior consultation and approval of the investigator-in-charge. I will inform you as to the release date of the public docket.

I appreciated [REDACTED] insight and assistance throughout the investigation. Best wishes and safe travels to Homer, Alaska.

Kindly acknowledge receipt of this email. Please feel free to contact me with any questions or comments you may have regarding this process.

I look forward to your review and comments.

Best Regards,

Luke Wisniewski
