

Communication Summary

11/4/2019

Information from: Chris Palmer, Certified Flight Instructor

Summary & Factual Information: Mr. Palmer was asked for his recollections of the flight, the airplane, and confirm the pilot's flight review. He, in part, reported:

I confirm that I did a flight review with [the pilot] on 4/24/19. During the flight review, [the pilot] explained that he previously had trouble with the engine ignition system and that it was now working properly. I didn't notice any problems with it during our flight.

I can attest that the above summary is correct to the best of my knowledge:

Edward F. Malinowski
National Transportation Safety Board
Air Safety Investigator
