

Communication Summary

September 15, 2019

Information from: Mrs. Brooke Hill, Family Member

Summary & Factual Information: Mrs. Hill, in part, advised an NTSB Transportation Disaster Assistance Specialist that a few days after the accident, an Amish neighbor, ... came over and talked to her. He said the night of the accident that he was in his barn and heard [the airplane] fly over. He heard the motor “die” so he walked out of the barn. He said [the pilot] got the motor started and headed straight towards the runway. Then he heard the crash and seen the fire.

I can attest that the above summary is correct to the best of my knowledge:

Edward F. Malinowski
National Transportation Safety Board
Air Safety Investigator
