Good Afternoon Sara,

Thank you – I am looking for the cost of labor and material to restore the property to its condition before the occurrence, not including salvage. Do you have an estimate that does not include salvage? Thank you.

Very Respectfully,

[REDACTED]

The estimated repair costs for the crude dock are approximately \$9.4 million at this time. Please note that this amount also includes the salvage work performed.

Please let me know if you need anything else.

Sara

We are currently working on getting the costs for labor and material to restore the property. We should have this information available in mid to late January after our bid process has concluded. I will provide you with the information once it becomes available.

Thank you,
