Ritchie W. Huang
Executive Manager, Safety & Government Affairs
Daimler Truck North America
Washington, D.C. 20024

Re: Roadway Departure and Crash with Parked Vehicles, HWY23FH013

Mr. Huang,

The NTSB's draft factual reports and attachments for the above referenced investigation are ready for your technical review and comment. The purpose of the technical review is to verify the accuracy and completeness of the factual information. As a party to the investigation, please review the documents and ensure that the information contained within is accurate to the best of your knowledge. In addition to any comment you may have on the draft reports, please also indicate whether you believe any additional information is needed to complete the factual record.

Your technical review should focus on the factual comments only, and not analysis of the case. After the technical review, you may send in a party submission where you can offer your analysis, including proposed conclusions, probable cause, and recommendations, if you so choose. When you submit your technical review comments, please notify me if you plan to have a party submission.

To access the documents, login to the NTSB file sharing website (kiteworks) using your email and password established during the investigation. A hyperlink to the file is here: [All Files | Kiteworks](#) The "NTSB Technical Review" folder has the files listed on page 2 of this letter.

Please return any comments to me by: **April 5, 2024**

Sincerely,

Michael LaPonte, Lead Investigator
