**International PROSTAR+ 122 6x4**

**VIN: 3HSDJAPR7HN473607**

Recall data refreshed on Oct 17,2023

**0 Unrepaired Recalls**

associated with this VIN

**What if my car isn't recalled now? Could it be recalled later?**

Yes. Whether a manufacturer independently conducts a safety recall or NHTSA orders one, the manufacturer must file a public report describing the safety-related defect or noncompliance. Manufacturers are also required to notify owners by mail within 60 days of notifying NHTSA of a recall decision.

Look for this distinct label to distinguish critical safety recall information from other marketing material.

**Where's my VIN?**

Look on the lower left of your car's windshield for your 17-character Vehicle Identification Number. Your VIN is also located on your car's registration card, and it may be shown on your insurance card.

**What this VIN search tool will show**

- An unrepaired vehicle affected by a vehicle safety recall in the past 15 calendar years
- Vehicle safety recalls from major light auto automakers, motorcycle manufacturers and some medium/heavy truck manufacturers

**What this VIN search tool will not show**

- A vehicle with a repaired safety recall. If your vehicle has no unrepaired recalls, you will see the message: "0 Unrepaired recalls associated with this VIN"
- Manufacturer customer service or other nonsafety recall campaign
- International vehicles
- There may be a delay with very recently announced safety recalls for which not all VINs have been identified. VINs are added continuously so please check regularly.
- Safety recalls that are more than 15 years old (except where a manufacturer offers more coverage)
- Safety recalls conducted by small vehicle manufacturers, including some ultra-luxury brands and specialty applications
