

April 22, 2023

Location: Cedarville, MI

Statement:

On April 21, 2023 I came on watch at 0745. We finished loading and started topping off the cargo holds. The First Mate went to the pier and took notes of the drafts while we trimmed. Once we completed trimming, I was told to standby bowlines 1 & 2 while we pull the stern away from the pier. I continued to stay on the bow until we cast off the lines forward. Once clear of the dock I proceeded to the bridge for BRM. I was dismissed shortly after 1200 and went to my room until it was my 1945 watch. When I came to the bridge, I was told from the First Mate that we are sitting at anchor and waiting for ABS to come onboard.

V/R,

Jenny Marcelin
Third Mate
John J. Boland
