RE: WPR19FA124; Feather Lab Case #190508.35

Dear Mr. Huhn,

On 08 May 2019, one sample of bird remains recovered from the clothing of a victim involved in aircraft accident WPR19FA124 was received for identification.

The sample was identified as Green-winged Teal (*Anas carolinensis*) using DNA analysis. The feathers matched an adult museum specimens.

Good luck with your investigation, if you have any further questions please let us know.

Sincerely,
