I, Luke Hutchison, have no recollection of the accident which occurred on the evening of January 28, 2019. I do not recall entering the plane, the take-off, or any part of the flight. I have no recollection of what may have caused or contributed to the accident, nor do I recall who was at the controls during any part of the flight, including the crash. My understanding is that we took off from Oceanside Airport. Robert Ventura, the co-owner of the plane, was present at the time of take-off, and has informed me that there was good visibility at the time of departure. Robert Ventura has reported to me that he saw me enter the plane first which would have placed me in the left seat. The plane crashed into a mountain side shortly after take-off. I recall waking up approximately five days later at Scripps Memorial Hospital in La Jolla, California.
