Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Finishing up my annual condition inspection and went to test fly the aircraft. Everything checked out so entering into the traffic pattern using runway 36. When coming in to flare a little high so I was trying to do a tail wheel first (or 3 point landing) the tail wheel touched first the mains came down hard causing the plane to veer to the right. The right main dropped off the pavement pulling the left off as well. Taking me out into the grass; the grass field was rough causing the plane to flip over (nose first).
