Kauai 136 Annual Meeting Agenda

- **Sign In:** Please Sign in for Credit. This does get submitted to the FAA
 - FAA: (Not Present).
 - Airport Operations: Kellie Hoots not present but did ask Barrett to brief a few issues.
 1. Please fly altitude for inbound and outbound traffic according to the LOA.
 2. Always use call sign when reading back instructions.
 3. Keep transmissions short and to the point.
 4. Remain on tower freq. until clear delta on the harbor due to increase on runway 3 arrivals.
 5. Lihue can issue certificate of waivers for commercial drone operation in Class D. usually will be restricted to 150ft.
 - Compliance: Required to remain 1500' AGL over homes for helicopters and fixed wing.
 - Noise issues: Noise was a big topic this year we all agree we need to do better. I presented a power point to speak of noise sensitive locations.

This article was talk about again:

Bowing to pressure from community groups upset by the noise of whirring rotors, city officials have banned most types of helicopter sightseeing flights leaving from Manhattan. The new rules, which went into effect this week, prohibit tourist flights from swooping over Central Park, the Empire State Building and all of Brooklyn. They are restricted to flying over water. (So don't fly like it can't happen here)

Ina from Tour noise hotline ask me to go over noise issues through out the year and where it is coming from and to fly neighborly.
 - Safety Issues: (Radio calls, reporting points, scanning, reporting drone activity etc.) Power point was presented to speak of areas of conflicting traffic. Unauthorized drone issues should be reported to FSDO.
 - Next 136 Meeting: I don't mind hosting this but if anyone else wants to let me by dropping me an email.
