[Use caution with links/attachments]

Hello Rebecca and Enterprise Encroachments Team,

Epic is seeking encroachment permission from Enterprise to add ~ 5 ft of sand cover over 3 existing Enterprise Pipelines (2 Highly Volatile Liquid and 1 Natural Gas) located in Corpus Christi.

These lines are located within the “bulkhead location” outlined in white on the attached KMZ.

Epic’s is building a new Marine Terminal along the Corpus Christi Ship Channel. Construction includes building a bulkhead to support a dock platform used to fill supertankers with crude oil. Our new facility is located between the Interstate Grain Terminal and the Plains Terminal property along Up River Road.

**NOTE:** These 3 Enterprise pipelines are exposed during low tide and are under water during high-tide. The new bulkhead will add ~5 feet of sand cover over these pipelines.

**DATES:** Epic plans to begin construction on the Marine Terminal facility the week of July 13, 2020. Contractors will be using **CASE Loader Backhoes, Model: 580N EP90** to spread and pack sand to build up the coastline during bulkhead construction.

Please see attached exhibits and KMZ for this project and let me know if you have any questions or need additional information.

Thank you,

-Reg
