Carliayn – Thank you. I will look over all of your comments and respond to all tomorrow. A few things that I can address quickly re: highlighted below...

- With regard to work type 4.2.1 – previous qualifiers are no longer with the firm. To keep it as simple as possible for now I omitted seeking this work type and will submit new qualifiers when we have this settled. We are currently not pursuing anything in concrete bridge design.
- I thought I used Art and Ernesto in all places where they were previously. I will double check. Perhaps I missed something. I have no objection to using them in any work type to which they can contribute to our qualification.
- On 4.1.1 it was my mistake to list Jorge Canales as PS. He should be X. I apologize.
- For all other staff that are X, or do not have a current LBUS payroll register, it is because they are no longer with the firm. That is why I have removed them (X) in given categories.
- Yes, the firm's authorization from Florida Board of Architecture & Interior Design is pending. That is why I did not include work type 14 in the LBUS form, despite the fact that our qualifier (Matthew Salerno) is still and employee in good standing.
- Will I be able to submit the audit to someone else in your absence, for instance if we receive it Friday or Tuesday?

I would like to speak in person. May I call you tomorrow?

Thank you.

Regards,

Robin Malacrea
