

## PERSONAL STATEMENT

Airman: Max Klikuszowian  
Aircraft: N220XC  
Date of Loss: 4/23/2021  
Location: KFNL

Jeremiah Larsen and I departed KFNL in his Xcub on April 23, 2021. Jeremiah, the pilot in command and sole manipulator of the controls was practicing landings on runway 33. Upon the final landing of the day, the aircraft ground looped to the left, striking the right wing on the ground. Prior to the final landing, Positive exchanged of controls never occurred and Jeremiah was still the sole manipulator. As a reaction to the incipient ground loop I attempted to fix the situation with rudder, although, the aircraft quickly became established in the loop. After the ground loop Jeremiah, communicated with ATC and taxied to the ramp. I did not take control or communicate with atc the entire flight with Jeremiah. I did not, taxi, takeoff, or land at any phase of our flight that day. Jeremiah and I had a very clear conversation prior to commencing our first flight together who and when each of us will be acting as Pilot in Command.
