The forward trash chute is leaking water into the stb void...we got all of the water out of the void.the leaks are coming thru the splash zone that we applied to keep from sinking last winter..

I thought this had been repaired in shipyard.

I want to call cooper and have him come look at it...i

repaired in shipyard.

I want to call cooper and have him come look at it...i will ask for a bid to repair it properly.

Do it

Ok..i wilm have him come look at it tomorrow
