Gretchen Pennington - Mgr. Ledge Dale Airport (Brockport)

Nick Breslawski - Pilot of PA-28 which departed before N24RG

SUBJECT

Accident at N56

DIGEST

Ledge Dale Airport was contacted to determine if N24RG had taken fuel on 4/7/21. The Airport Mgr could not confirm because she was not at the Airport. She added Nick Breslawski to the call because she thought he would know. Nick did not know if N24RG had taken fuel.

~~Gretchen~~ Nick had met Mr. Groetsch at N56 and had lunch with Mr. Groetsch and Mr. Mandalier at the Diner across from the Airport. Mr Breslawski said Mr Groetsch had made the trip to N56 for lunch often and would have been very familiar with the Airport. Mr. Breslawski departed before Mr. Groetsch and said there may have been a slight tailwind on Runway 24 but not enough to move the wind sock. Mr. Breslawski said after take off he attempted to contact N24RG by radio & cell phone. When he did receive a reply he circled back over the Airport at 4000 ft but did not see any sign of N24RG so he continued to his destination. Gretchen later called back and confirmed N24RG did take fuel. She also said she had heard Mr Groetsch shut off his fuel selector after shutdown.

CONCLUSION, ACTION TAKEN, OR REQUIRED

Gretchen Also emailed the Electronic Invoice for the fuel purchase. It was also mentioned Mr Mandalier was a flight instructor. A search of Airman Records did not show Mr Mandalier possessed any Airman Cert.
