

Vessel - Pickle Fork - Port Side - #2 and extensive  
DAVID COLE

July 27-0814 - On My approach to Fountreey dock  
from Vashon Dock - took over the wheel from QM-Bill  
Larson at around 6 tenth to Starb at 3 tenth got  
engagement on the bow - told CE we were at Fountreey  
CE responded that I was engaged & answered Thank you  
called the dock at Fountreey that the crane was  
coming in - started slowing the boat on approach to  
Fountreey. Then came in contact with dolphin on  
starboard side, brought the controls handle's back  
to 0-10 - Backed down hard so I would not go  
aground - Backed out & started coming into ship.  
AL Birkland took over and finished the landing
