

### **density altitude calculator**

To use the calculator, just click the type of units that you will be entering, then enter the altitude, temperature, altimeter setting and dew point. Then click the calculate button.

Elevation	<input checked="" type="radio"/> feet	<input type="radio"/> meters	486
Air Temperature	<input checked="" type="radio"/> deg F	<input type="radio"/> deg C	84.2
Altimeter Setting	<input checked="" type="radio"/> inches Hg	<input type="radio"/> mb	30.03
Dew Point	<input checked="" type="radio"/> deg F	<input type="radio"/> deg C	64.4

[ Calculate ] [ Reset ]

Density Altitude	2347	feet	715	meters
Absolute Pressure	29.507	inches Hg	999.21	mb
Relative Density	93.31	%	93.31	%
