Mr. Sorensen

Those are all of the maintenance logs, I'm sorry to say. I did several annuals after I purchased the plane, but my repairman's certificated does not cover this specific aircraft. So there are no legitimate records after July 2016. The hour meter shows 311 total hours, which is both airframe and engine.

Thank you,
M Brent Butler

Mr. Butler,

The FAA provided copies of the aircraft maintenance logs to July 2016. Please provide complete, legible copies of the airplane maintenance records – airframe and engine – from July 2016 through November 2021. Let me know if you have any difficulties in sending them via email. The agency maintains a secure server that can transfer larger file sizes if needed.

Thanks,
Tim Sorensen
