**Subject:** [URL Verdict: Neutral][Non-DoD Source] Rink's review of NTSB factual report

God morning,

I just talked to Rink and he had 3 comments regarding my report.

1. Rink said Bobby Blethen told him that he was a drill conductor and told Rink that he conducted drills aboard the Emmy Rose.
2. Rink said although Bobby Blethen sr had never been in the laz, Rink had been in there to test the laz bilge alarm. And others had been in there.
3. He said every crew member had signed a contract that included language that they would not use drugs aboard. Said he gave these to you for all crew members. Could you please send me the 4 from final trip.

I will review my factual report and send you updated paragraphs if any changes are made.

Thanks,  
Brian
