Hi Mike,

Yes, he did admit to running out of gas. Also said he had not visually checked fuel level prior to the flight.

Respectfully,

Steven Ronshausen

Hi Steve,

The NTSB case number is CEN21LA365.

I haven't spoken to him on the phone so far – did he admit to running the airplane out of gas? Nothing mechanically wrong with the airframe and engine?

Thank you.

Mike

Hello Mike,
I have completed all counseling with Mr. Baldwin and ready to close out on my end. He said he had spoken with you and will be sending in his report soon. When you get time could you send me the accident number? If there is anything else you need from me let me know.
Take Care,
Steve
