Written Statement:

On the morning of July 22nd, Nikita requested fuel for the banner towing airplanes, including the Super Cub PA-18 with tail number N-3666K. The aircraft only could bear .6 gallons, for the tanks were nearly full.

The pilot came to the terminal building looking for his banners and to request fuel at around 8:35, and asked for the fuel to be delivered in approximately 20 minutes. The condition of the fuel was good.

Lucero Orozco Vera.
