Title

Biography of A.D. McKisic

Aubra D. (A.D.) McKisic
Vice President, Chief Engineer
TrinityRail

A.D. McKisic has over thirty years of experience in the railroad supply industry, including leadership positions at A. Stucki Company, a component supplier focused on the dynamic performance of freight cars, and TrinityRail, a leader in railcar manufacturing, leasing, and related services.

A.D. currently holds the position of Vice President, Chief Engineer at Trinity Rail where he is responsible for the technical oversight of designs, including testing and analysis, and the technical interface with regulatory and other agencies such as FRA, PHMSA, NTSB, Transport Canada, and TSB Canada, as well as the Association of American Railroads (AAR). He currently serves, or has served, on multiple technical committees and task forces, including the AAR Tank Car, Mechanical, and Research Committees; the Railway Supply Institute (RSI) Committee on Tank Cars; the Chlorine Institute Transportation Issues Team; and the American Petroleum Institute (API) Rail Standards Committee.
